Shenyang Brilliant Elevator Co.,Ltd

**BRILLIANT**

## COMPANY INTRODUCTION

Shenyang Brilliant Elevator Co., Ltd. is a large specialized enterprise that engages in design, manufacture, installation and after-sale service business of modern elevators. It is subordinated to Yuanda Group, and now possesses the most advanced equipments in the world with the investment of USD 100 millions, annual production capacity has up to 50000 sets. There are more than 2,700 staffs working for BLT all over the world and last year the turnover of BLT was USD 540 Millions. The factory is located in Shenyang City, covers area over 900,000 square meters. The 177 meter test tower is under construction, total 11 shafts could guarantee the high speed test as fast as 10m/s.

As one of the core industry of Yuanda Group, BLT elevator has its own brand and intellectual property. A wide range of products at BLT, such as passenger elevator, MRL elevator, panoramic elevator industry, bed elevator, freight elevator, solid garage and automatic escalator & passenger conveyor, all of which have been applied into lots of global fields, such as apartment, hotel, commercial complex, shopping mall, supermarket, airport, underground and so on. Currently, BLT productions are running in more than 100 countries all over the world.

## LEADER'S VISIT

Hu Jintao, President of China

Wen Jiabao, Prime Minister of China

Xi Jinping, Vice President of China

Li Keqiang, Vice Prime Minister

Jia Qinglin, Chairman of CPPCC of China

The Rt Hon John Prescott,  
Former Deputy Prime Minister of UK

Bouasone Boupavanh,  
Former Prime Minister of Laos

## ■ PRODUCT INTRODUCTION

### ■ Passenger Elevator

*The first choice of high buildings*

The advanced traction system makes the car runs smoothly. Safety devices guarantee the passenger's safety. The VVVF control system makes the speed more smooth, the startup more comfortable and the performance more stable. It is also a great enjoyment to the passenger with the unique design of car, humanized decoration, and individual vision.

### ■ Machine-room-less Elevator

*New Concept of energy saving and environment protection*

Traditional technology is hard to meet the dual-demand of running and energy saving. However, permanent magnet synchronous technology realize both energy saving and environment protection. Displacing the original top machine room and bottom or aside machine room into the hoistway; adopting small traction drive and small rope gear and below structures- all these design make the elevator more compact, reasonable and aesthetic.

### ■ Panoramic Elevator

*Enjoyment of the super space vision*

It's the design of super visual space that makes the limited car space to extend limitlessly. The traction machine and the reliable control system will let you feel comfortable. As energy saving high efficiency and safety of panoramic elevator, the BLT's products have been widely used in hotels, offices, supermarkets, etc. to become an indispensable view of the modern city.

### ■ Small machine room elevator

*Masterpiece of gearless traction and high speed technology*

Small machine room elevator adopts permanent synchronous technology, and has characters of energy saving, environment protection, stable operation, low noise etc. The gearless traction machine and small control devices make its allocation more reasonable. Compared with traditional elevator, it takes up less room and saves the costs. The compact structure is appropriate to the complex structure and makes it a part of the entirety of elevator and architecture.

### ■ Bed Elevator

*Effective assistant of modern medical treatment*

Accurate, stable, comfortable and perfect combination to the needs from medical treatment. Advanced VVVF system makes speed control more accurate and door open control more stable. VVVF door operator can precisely control the opening and closing speed of the door. Spacious and humanized car design makes patients comfortable. Unique design concept and clean running space constitute a harmonious unity with modern medical treatment.

### ■ Freight Elevator

*New concept of modern construction freight*

Smooth running, durable life and economic using. Super large space freight, changes traditional transportation function. Controlling technology plus AC two speed electricity drive tech make running reliable and maintenance convenience. Optimized car design ensures passengers enjoyable.

### ■ Escalator and passenger conveyor

*Soul of shopping malls, supermarkets and public transport*

Adopting advanced craftwork and processing methods, BLT products features smoothly running and excellent performance. BLT escalator is designed and manufactured according to the Safety rules for the construction and installation of escalators and passenger conveyors by European standardization committee (EN115). Supervising the equipments through many safety protection devices, make the equipments running safety. The concept of human and machine project design makes it more widely used in large shopping mall and supermarket, convenient for use and maintenance.
